GS 3000 COMPUTERIZED PATROL GUARD TOUR SYSTEMS

Simple, Reliable, Easy To Use And Affordable

Affordable Solutions

The GS3000 Patrol tour system is the most affordable computerized system available. It features the latest memory chip technology. The GS3000 data hand scanner is extremely durable. It is the ideal solution for companies wishing to track their employees whose work duties require moving from place o place; such as security guard patrolling, policeman patrolling, remote site and equipment inspection etc. the GS3000 hand scanner records the date, time and tag station when the unit comes into contact with the station button tag. Use the included Patrol Management lite software to download the GS3000 hand scanner's patrol information to generate Reports which can be printed or exported to MS Word/Excel, PDF, JPEG and many more.
