## SMART PUNCH CT-900 CALCULATING TIME CLOCK

RELIABLE CALCULATING TIME AND ATTENDANCE CLOCK  
NEVER TOTAL ANOTHER TIME CARD AGAIN!

## SMART PUNCH CT-900

Calculating Time/Attendance Recorder

**NEVER TOTAL ANOTHER TIME CARD AGAIN!!**

### Introducing the New Smart Punch CT-900 Calculating Time Clock

Time Clock Depot's CT-900 is a flexible and fully customizable time clock solution designed specifically to meet the needs of small to mid-size businesses with less than 100 employees

Not only is the CT-900 easy to use for employees accustomed to more traditional time clocks, the CT-900 is the next generation of employer time clocks that allows you, the small business owner, to automate and fully customize time records, total employee time, round punches, and deduct breaks based on your individual user-defined settings

The CT-900 also comes with an extensive suite of advanced features that will help you tailor and professionally manage your employee time and attendance records by eliminating costly manual errors, saving you time and money by reducing costly payroll mistakes

#### Product Highlights

- Adjusts for short months, leap year and daylight saving time
- Includes Job Cost Mode for tracking time spent on task, customer or job
- Track tardiness and early or late departures
- Calculates total hours worked per day and pay period for up to 100 employees
- Supports weekly, biweekly, semi weekly and monthly pay periods
- Table or Wall Mount

#### Package Special

- Smart Punch CT-900 Calculating Time Recorder
- 100 Bonus Time Cards
- User Guide
- 1 Key

**\$699.00**

# SMART PUNCH CT-900 CALCULATING TIME CLOCK

The **CT-900** is unbeatable in technology, user friendliness, and by far one of the best automated time clock solutions for small businesses with 100 employees or less.

There is no software to install. Flexible and simple to customize, the CT-900 is all you need to meet your small business needs - everything you need to get started

## Timecard Features

- Prints weekdays in English, French or Spanish
- Optional automatic break/lunch deduction
- One timecard is used for all pay periods including weekly, biweekly, or monthly pay periods and for job cost (non-calculating pay period) mode
- Automatic print alignment and auto sensing of the front and back of timecard eliminates mistakes and makes punching IN and OUT quick and simple
- Employees are assigned to pre-numbered timecards (1 to 100)
- Supports two punch pairs per day per employee while in calculating mode
- Optional automatic break/lunch deduction
- Highlights missing punches with a "W"

The CT-900 offers an optional Alarm feature to connect a Buzzer/Bell to signal shift start and end, breaks or lunches.
