Punch data from the MTX 30 can be transferred to your PC via LAN (Ethernet), USB flash drive (sold separately), or RS232 serial cable (also sold separately). If by LAN, data can be retrieved automatically from the software.

Time Guardian MTX 30
Bio-Metric Fingerprint Time and Attendance System

MTX 30 Pro Package

$995.00

Complete Bio-Metric Time and Attendance Systems Package The package includes: MTX 30 Pro time terminal, Time Guardian 100 employee software, Ethernet com cable, power adaptor and a one year warranty

Why Use the Amano MTX-30F?

- You prefer managing time and attendance with PC software
- You want employees to punch by using fingerprint biometrics
- You have a local network using Ethernet cable or WiFi

How to Punch Time

There are two ways -- 1. Place **finger** on the sensor. or 2.

Enter a **PIN** number on the keypad. Fast and efficient.

How to Prepare Hours for Payroll

Once data is transferred to your computer, Time Guardian software handles the hours reporting. It is comprehensive and has features that allow most any time and attendance policy you can think of. At the end of your pay period, simply export your reports tailored to your payroll provider.
